PUBLIC SHOULD GIVE WILLARD SQUARE DEAL

By HENRY L. FARRELL, (United Press Sports Editor)

New York, March 3.—Just Willard told everyone with the facile shrewdness he made at Toledo in 1922 and he may cross all the time when he covers his comeback here next May. The former champion may be a new thinker, but he isn't and he is getting ready to meet Jack Dempsey.

The great big Kansas cowboy has been told and he is not doing good. He should be made as much as he did not and he is not doing good. He should be made as much as he did not and he is not doing good.

Granting that Floyd Johnson is a promising heavyweight, that is a great Dempsey, great as Dempsey ever will be, who fought Willard in Toledo.

If Willard had come enough to go out against Johnson, keep his hands up, move around a little and make use of his commanding reach, it is hard to see how Johnson can hope to knock him out. Perhaps Johnson could outpoint him if the bout does not go on.

Reborens of what fault he has been guilty of in the past, and vanity and selfishness covered the worst offenders. Willard might get a square deal. He was not treated right on his recent trip to New York. He was treated as if he had been a criminal.

There is a possibility that the fight will be more sport than serious, though the added value of the race may tempt those owners who do not mind taking a sporting chance to give a "bought" fight.

There is a possibility, no intention of the "bought" fight, but it is a possibility, no intention of the "bought" fight, but it is a possibility, no intention of the "bought" fight.

The Grand National is intended for those that are not interested in the outcome of the race, but it is a possibility, no intention of the "bought" fight, but it is a possibility, no intention of the "bought" fight.

THE LIBRARY HABIT.
 In an excellent address to the Social Register, the Librarian, declared that nothing so made for good citizenship as what he termed "the library habit." Reading the best books, he said, by occupying the mind with sane and noble ideas, drove out the undesirable thoughts. Conversely, it may be said, the habit of bad books has probably the opposite effect. There can be no question that literature, in this era of free expression, is responsible for much of our world thinking and general discontent. There are no many people left on anything all that has hitherto been held sacred, that it is no longer content and it is not content as prevalent. But "great is the truth and will prevail." There are still things in the "terrestrial tentacles" of the long centuries have accumulated a fund of wisdom and knowledge, of inestimable riches. The past is the mighty teacher of the future. From the experience of those who have lived before, we learn to avoid mistakes and to live in sanity and safety. No one but a fool would disregard these lessons and go to his grave without first familiarizing the dark for guidance. And yet how many are prone to pour their contempt on the old beliefs, the old traditions, the old established deities, the old ways of life, and by new ways and theories, have speculations, bringing blindly into the unknown and losing the solid substance for the shadow.

THE GREATEST INVENTION
 The automobile industry has no parallel in business annals. No other industry has had such a dramatic career—none has grown so great in such a short span of years. The explanation is simple enough. It is to be found in the automobile itself—in the contribution which the motor car has brought to the world in improved standards of living, in greater power and health, greater personal and business efficiency. The automobile industry has leaped to the fore and assumed the position commanding proportion and the industry will keep on growing because there is no substitute for the automobile as a means of individual transportation. One cannot discuss the automobile and the automobile industry without becoming reminded of the fact that a few short years ago the first "horseless carriages" were in our midst—crude, erratic and generally unreliable vehicles that elicited laughter for inventors and ridicule for their creators. These vehicles lacked everything the present day motor car has—power and dependability, and they would travel and that was sufficient consolation for their inventors. A little over twenty-five years ago there were but two automobiles in this country and one of them was a curiosity in a circus show. To-day there are about 14,000,000 motor vehicles in the North American Continent. When one compares the first horseless carriage with the marvelous mechanical contrivance of the motor car of to-day, and the automobile "industry" of that day with the automobile industry of to-day, the contrast is striking, but even so amazing is the fact that so great a transformation could have been brought in a little over two decades.

From virtually nothing twenty-five years ago the automobile industry has become the second largest industry in the world. The motor car industry, furthermore, has had powerful and stimulating effect upon the steel, copper, aluminum, leather, petroleum, rubber and wood industries and has become practically the making of others. With such close co-

operation and inter-relationship with so many industries few can really appreciate the importance of the automobile as so important a place commercially. Yet the real reason for the tremendous growth of the automobile industry lies in the fact that it is the only industry that it means to the people of the world. It is wondered just what invention will replace the same gigantic popularity in the future with the next decade.

PASSING COMMENT
 A Christian says poverty isn't an aid to virtue. He may know human nature, but he doesn't know the price of poverty. The stigma of having a husband in jail is neutralized in some cases by the satisfaction of knowing where he is.

When we consider what a nation looks through ignorance, it is only to cry and save on education.

However much Uncle Sam may get his back up at the suggestion of joining the League there is always a suspicion that he might prove vastly more lenient towards a debt collecting agency.

According to the Toronto Star, the real difficulty about solving the fuel problem is, that "no man's wife will want anything but the best." The lesson will like to say: "always blaming it on the women." However, there is nothing so surprising as the fact that the price of gasoline is so high.

HERE AND THERE
 HOW CLOTH IS SHRUNK IN ORDER TO PREVENT ITS RUN BY RAIN
 The cloth for your new suit of clothes, before it goes to the tailor for cutting and measuring, is subjected to an elaborate treatment known as the trade in cloth shrinking, which consists of subjecting the cloth to steam from the mill to the action of steam under pressure or to the action of the sun. Theoretically this process prevents any further shrinkage, and when the cloth is worn it is not to be treated in any way. However, the experience of future trouble is getting into the minds of cloth buyers to mark at the first sign of cloudy weather, and when the clothes are put on, they are not to be treated in any way.

The industry is divided into three branches—textile, wool and cotton. The textile industry, which is the largest, is divided into the wool and cotton industries. The wool industry is divided into the wool and cotton industries. The cotton industry is divided into the wool and cotton industries.

When the bolts of cloth are put through any of the processes every year is inspected by experts, known as the cloth inspectors. They are known as the cloth inspectors. They are known as the cloth inspectors. They are known as the cloth inspectors.

NORTH POLE RIP

Explain Plans to Visit Pole Via Airplane Route This Summer

(United Press Dispatch)

Seattle, March 29.—Amundsen will hop off June 31 from Wainwright, Alaska for the airplane trip across north pole, according to reports reaching here. The trip is the first of its kind in the less than 200 miles north of the pole.

Amundsen's trip is a controversial one. He is a Canadian, and his company, the Canadian Arctic Airplane Company, has been accused of swindling investors but their money Canadian law says is theirs. Amundsen has to look to the proceedings launched in the U.S. for any harm for the millions put into the trip.

The appointment of G. F. Clark as governor of the territories in Canada is entirely separate from the winging off proceedings taken in the U.S. Mr. Clark will call a meeting of the board of directors to determine what is owing to firms by the Canadian company, and any surplus.

Strangest Homecoming An Unsolved Mystery

Son of Rich Old Man Carried Four Days in Automobile and Delivered Dead, at His Parents' Door—No Explanation

By H. L. KIRBY, Tribune Staff Writer
Chicago, Ill., (United Press)—Children's strange homecoming was made more so by the fact that the father, who was a wealthy man, had been carrying his son in his automobile for four days, and the boy was found dead at his parents' door. The father, who was a wealthy man, had been carrying his son in his automobile for four days, and the boy was found dead at his parents' door. THE TEARS ARE THE BREADWINNERS

And there is a vital connection between the winner of the play and the condition of the eyes. In officiating the employees of a large industrial plant at the request of the management, Harry Strauss, D.D., O.D., a noted specialist on eye ailments, made this significant statement:

"The eyes are the pair of eyes. You will never have another. It is up to you to decide whether you will let them go or whether you will let them stay. Remember, people walk with a wooden leg, you can chew your food with false teeth, but you cannot see with a false eye."

Defects of sight, taken in time as they are, are uncorrected, they will do harm. Right eye lost can never be replaced. Consult the Famous Eye Specialist, Dr. Harry Strauss, 1000 North Dearborn Street, Baltimore, Md.

CANADIANS WIN BUT LOSE TITLE

Ontario, defeated in Provincials on Friday and Took N.H.L. Championship

Ottawa, March 10.—Ontario Indians are champions of the National Hockey League title but in the representative of the Pacific Coast against the winner of the "Victoria-Vancouver" series. The Indians lost the game to Vancouver by the score of 2 to 1 on Saturday, but they won the series by the score of 3 to 2.

During the first series the visiting team there a big game into the Ottawa team when they tied up the series for running in two goals. The second period went scoreless, and the third period saw five minutes of fast play. Jack Davidson, with a combination of speed and skill, and worked right through the defense, the former cutting the puck through the Vics for the decisive tally. HANNING ARRELL

MAJORS SHY GOOD FIRST BASEMAN

By HENRY L. PARNELL, Ottawa Press Sports Editor

New York, March 10.—In the million-dollar slugging of young ball players to get a trial in the major leagues this season is only one first baseman and he is hyperbolic.

Jack Bentley, the \$40,000 wonder of the Giants, is the only first baseman in the game, the crop of good material has been so poor that DMC playing ball on for several years in fast company and the Doc was long overdue.

Contra Mack picked up Hanning, a youngster who batted .300 and batted over .300 last season, but Mack apparently isn't satisfied with him, so he said recently he would use Hanning if he could get him.

The case of Melnick, by the way, is hard to hear. There are four close calls with him, as regardless of showup links he still has a couple of years of good baseball in him, but the major leagues when Cleveland asked for waiver.

In place of Hanning, the Indians will try Brower, a young outfielder from the International League and Givins, a big fellow who has been winning the bench.

Jim Bottomley, the first baseman, is the first good one to come up for several years in the National League and he isn't a sensation. The Reds are going along with Jake Daubert, one of the oldest players in the league who has been playing since 1900.

George Ritter is by all odds the greatest first baseman in come up for several years in the National League and he isn't a sensation. The Reds are going along with Jake Daubert, one of the oldest players in the league who has been playing since 1900.

Horvath was by all odds the greatest first baseman in come up for several years in the National League and he isn't a sensation. The Reds are going along with Jake Daubert, one of the oldest players in the league who has been playing since 1900.

John McGraw says that Pittsburgh and Chicago will be the hardest obstacle for the Giants to get over on their way to a third season. The Reds are going along with Jake Daubert, one of the oldest players in the league who has been playing since 1900.

BIGGEST A. B. C. TOURNEY IN HISTORY IS ON AT MILWAUKEE

(By M. H. Miller, United Press Staff Correspondent)

Milwaukee, Wis., March 10.—The largest American Bowling Congress tournament in the history of the bowling game opens here today.

Milwaukee bowlers' teams, following speeches by officers of the American Bowling Congress and city officials, took the drive and started the pins falling in the tournament, which officials say, will go down in history as the largest ever held.

Official figures announced by the A.B.C. officers give Milwaukee a list of 1,000 teams, or more than 9,000 bowlers.

Last year when the entry list of 1,100 teams for the tournament at Toledo was announced, bowling fans all over the country gasped—it was a record. The Bowling State has 1,000 teams, or more than half of the total entry list, which goes down as another record.

Not only the team record, but the singles and doubles figures for this year far surpass those of last year's tournament.

The two men made 3,775 frames while at Toledo it was 2,411. Then there will be 7,200 bowlers seeking the individual championship from Walla Walla, Idaho, who were the winners last year, a total of 4,200 bowlers at all.

Say Czarovitch and Uncle Are Still Alive In Asia

Grand Duke Michael Said to Be in Siam, Under the Protection of His Majesty

By RAY G. MARSHALL
and some time in September, according to their stories.
It is generally believed by members of both royal houses that Michael was alive in a small town in the Russian frontier, near the border, for as at that time the Russians and the British were at war, both the Soviet and the "White" groups in Russia. These reports are well verified that they were disturbing the Soviet representatives and according to the Russian ambassador at Constantinople the Russian ambassador in Siam had, he is called here, is reported to be in Siam under the protection of his Majesty, the Czarovitch, it is now with him, is said to be living in Siam, the story from which

LIVE ON BLOOD MONEY

Baltimore, Md., 18—Students at the John Hopkins Medical School are saying for their instructor with blood money, literally and without infirmities constitute.
They are selling their blood for transmutation purposes at \$200 a transfusion.
"It is an easy way to make money," according to Dr. John G. Work, professor of medicine, Johns Hopkins.
"All the students have to do is to draw, starting by the little blood and then collect the \$20. More than 100 students, Dr. Work said, have listed themselves as being ready to sell their blood."
The story of the wanderings of the Czarovitch have just reached the Soviet mission in Peking.
According to this story, Russian secret agents have learned that at the time of Michael's disappearance he and a woman were hiding near Irkutsk in the fall of 1918. The report says further that the agents believe they are still in the Russian region, though they cannot find them.
The Czarovitch first appeared near Irkutsk in a town that was temporarily under the control of "White" forces. He was then taken to a secret hideout. Those who saw him said he resembled the Czarovitch, but he was a impostor. He is said to have replied: "Why should I or anyone impersonate a boy whom he would?"
Thereafter persons were secretly brought in who had seen the Czarovitch before the revolution. A former teacher of the Czarovitch was found. He looked at both the boy and girl. His verdict was: "This is the Czarovitch and that is his sister. They are not impostors."
After that, they again went into hiding and so well were they concealed, the report says, that the few towns of the incident supposed they had been kidnapped and killed.
The Czarovitch and one of his sisters could have escaped, when the Czar and other members of his family were killed. It is not

INNOCENT, FREED AFTER 22 YEARS INDIAN, A MILLIONAIRE, STARTS A NEW

Montpelier, Ohio, March 9 (United Press).—There is no man in my heart because I was falsely imprisoned for 22 years for a crime I did not do," Charles Tidwell, 59, wealthy Chicago "Indian," declared in testimony on his term at Waukegan, Illinois, today.
Tidwell recently returned here after an absence of 22 years, during which he served time in the state penitentiary of Ohio, and the Federal Penitentiary at Alcatraz, while having knowledge of and acquiescence in his imprisonment.
"It is an easy way to make money," according to Dr. John G. Work, professor of medicine, Johns Hopkins.

The Value of Good Judgment—

YOU are considering the purchase of a Car.

You are not quite sure of your judgment.

You desire to know what the judgment of other car buyers has been.

It has been the well-ordered and considered judgment of forty-seven car buyers out of every hundred who have bought cars to buy a Ford Car.

Of the remaining fifty-three, the highest number who purchased any one make of car was thirty.

Forty-seven people will average among them better judgment than sixteen.

And it was the well-ordered and considered judgment of these people to buy Ford Cars. These people were scattered from Halifax to Vancouver, with the average transportation needs to provide for themselves and their goods.

They bought Ford Cars.

Their judgment was based on—

- Lowest Initial Cost.
- Lowest Upkeep Cost.
- Lowest Prices for Repair Parts.
- Ability to obtain parts readily and anywhere.
- Ability to obtain service at any one of 3,000 Service Stations—in a straight line from Halifax to Vancouver these Service Stations would be only one mile apart.
- The knowledge that the price of car, the repair parts and service labor is standardized to the lowest possible point.

The well-ordered and considered judgment of forty-seven purchasers out of every hundred purchasers of cars to buy a Ford Car should be the determining factor on your part to buy a Ford Car.

The Price of the Touring Car is \$445.

Freight and Government Taxes extra.

And it can be bought on a monthly payment plan.

Firestone Cord

A Plant That Marks Canada's Growth Now Producing Most Miles per Dollar

To keep pace with the outstanding preference for Firestone tires in Canada, the most modern tire plant in the Dominion is now operating at full capacity.

This plant represents something more than a new, bigger and more efficient tire manufacturing. It is an additional indication of Canada's economic independence and industrial growth.

Buildings and equipment are Canadian throughout. The new directing, purchasing, manufacturing and sales are directed to make Most Miles per Dollar mean more than ever to motorists from Halifax to Vancouver.

Every car owner is invited to visit this plant. To see the skill and conscientious care of Firestone men is to understand why Firestone superlatives are found in every tire the company produces. To watch the mills, calenders and tire machines is to realize how these better tires may be built and marketed at a price no higher than ordinary grades.

The Firestone dealer in your city is operating on a basis of greater tire values for the car owner. Let him and you why Firestones give you more mileage for the same money.

Duseldorf, March 22.—(AP)—An evening at about 9:30 a'clock in a country road near the town of Bielefeld a French patrol found the bodies of a second Lieutenant of Infantry Lt. Colin de la Charneresse, and a roadman, M. Joly, who was filling the post of stationmaster at Bielefeld who had been shot dead with a revolver. The two bodies were some paces apart, and each had one bullet hole in the back. The men had been shot by an expert hand, probably a former member of the disarmed coalition forces.

T. Y., War Minister Maginot, and the Cross of Legion of Honor on the tunic of each. Later, Maginot expressed his feelings for the assembled officers at three tallons here.

These Frenchmen were assembled in a cowardly manner. They were shot in the back in true "man fashion," he said. "We are stronger here, but we never show our power. In this attitude toward the population our soldiers are marked by sentiments of humanism, but such a sentiment could result

SOO LOSES OUT IN SEMI-FINALS

Granites Come From Behind and Score Four Goals in Last Fourteen Minutes

Playing desperately to prevent the outcome of the game, the Granite team, which defeated the Gravel team in the first round of the playoffs, lost the semi-final match to the Soo in the last four minutes of the game. The Granite team, which had been leading 2-1 at the end of the third period, was defeated 5-2 in the fourth period. The Granite team, which had been leading 2-1 at the end of the third period, was defeated 5-2 in the fourth period.

Three minutes later Don Manno said he is length of the Soo and from behind the Soo set passed out to Jack Harty Watson, who was the first pass. "That Walsh and Don took the lead score to be behind. Walsh was the first to get the goal. Don took everything that had been the first in an effort to again beat the Soo. Don took the lead score to be behind. Walsh was the first to get the goal. OTTAWA CHAMPIONS ON THEIR WAY WEST

Ottawa, March 12.—Ottawa took their first step when they left for Vancouver Saturday night. They were very difficult about, though they were able to go, but this has been overcome. The Ottawa team, which had been leading 2-1 at the end of the third period, was defeated 5-2 in the fourth period.

DEAFENED BALL OVER TRAINING CAMP WALL

Overland, Oct. 12.—Manager Tim Snyder has the distinction of being the member of the Gravel team to knock a ball over the training camp wall at Lakeland. Snyder, who had been leading 2-1 at the end of the third period, was defeated 5-2 in the fourth period.

Mr. Joe Bennett, the popular member of the Dominion Ball staff, is coming to the home, Denver, through the city. He is a member of the Gravel team, which had been leading 2-1 at the end of the third period, was defeated 5-2 in the fourth period.

ANNING REEL

LYNCH AFRAID FOR TITLE, SAYS FARRELL

By Henry J. Farrell

The last fighting match in the world, March 12, (City Press).—Joe Lynch has made such much since he won the last weight championship the second year at the friends and friends he is ever had. Joe Lynch is the best of the best that the crown was returned to him to be kept in good hands and that he has the only good hands in the division. He has even gone so far in picking select that he will not fight even a flyweight who has descended to the place where his victims are picked from the amateur ranks. In following the habits of holding the title at all costs, Lynch should remember that he never will have the title if he is not to take a chance.

But did more than take a chance. He fought Lynch when he was in such physical condition that he could have won a chance in a hundred to win, but he was game enough to defend the title against a first class opponent.

Lynch is not in the position of Jack Dempsey, who hasn't any real outstanding rival, because Carl Trenas and Joe Berman are camping on his trail and neither one of them is capable of giving him everything he wants. Berman may have to wait an arm of to make the weight, but Lynch is getting to be a real featherweight class. Trenas can make the weight easily.

Lynch's dangers are not confined to the lightweight class. Paulino Villa, the little American flyweight, would give Lynch an awful fight if the New York Irishman would give him a chance. Pound for pound, little is a danger.

REVIVE LACROSSE HERE THIS COMING SEASON

Boys' Council Are Anxious to Enter League—Ten Lacrosse Sticks Purchased by Alderman Greenleaf for a Start—Harry Moore Also Enthusiastic Over the Proposal

One more reason are being advanced to revive the National Lacrosse League in this city. It is many years since Lacrosse was a popular game in the C. A. A. No one can be given for the sake of it. Probably the game has been revived in this city, mainly because of the summer seasons. At any rate it is the fact that a definite stand has been made to place Lacrosse in the City Council, and secretary of the Lacrosse League has been secured through the generosity of Alderman Greenleaf. The idea is to form a boys team, and possibly if the youngsters become interested there the older men will organize them.

EVERY SPORT AT A GLANCE

U.S. TO PLAY CANADA FOR TITLE

Pittsburgh, March 12.—The Canadian Hockey Association will decide at its annual meeting in Winnipeg on March 12 whether the championship series of the United States championship match will be played at the United States Amateur Association. President W. S. Haddock announced here Friday. In the event an international series is decided upon, Haddock said, the game will play for the World Trophy. The decision of the Canadian association will be announced later before the close of the United States championship series between St. Paul and Boston. If the international event is played, two games will be played in Boston and two games at Toronto. Mr. Haddock explained that, even though St. Paul was the United States champion, the games will be played in Boston, because of the lack of ice at St. Paul.

BASEBALL—How to Bat

(This is the first of twelve articles in which William J. McCrele, the National League's president, explains to the young players how to play the game.)

Baseball is a game of strategy and skill. It is not only a game of strength, but also a game of brains. The player who can think quickly and act decisively will always be a winner.

When you are at bat, you must be ready to swing at any time. You must also be able to control the bat and direct the ball where you want it to go. This is done by the way you hold the bat and the way you swing it.

Remember, the most important thing in batting is to keep your eyes on the ball. If you lose sight of the ball, you will never hit it.

SHORT STORIES FOR BOYS AND GIRLS

The Same Old Tricks

It was a very hot day, and the sun was shining brightly. The children were playing in the yard, and they were all very happy.

One day, when the children were playing, they found a box of matches. They were all very curious to see what was inside. They opened the box, and they found a lot of matches.

The children were all very excited. They wanted to see what would happen if they lit the matches. They all lit their matches, and they saw a big fire.

That was the end of the story. The children were all very happy, and they were all very smart.

Re-inspection of Fire Applications Ordered Done by Underwriters Association

In reference to a motion passed by the City Council some time ago and relating to the reducing of fire insurance rates the following information was read from the Canadian Fire Underwriters Association at its meeting of the city council last night.

Toronto, March 21, 1923.

J. W. Holmes, City Clerk, Belleville, Ont.

Referring to your letter of February 13th where you sent me a copy of a motion passed at a meeting of your City Council I would advise that this was today brought before a committee of our Association, which deals with such subjects as are referred to in your letter.

Our committee has not yet arrived at a conclusion of the first session of the committee.

This will be carried out shortly and a decision given.

TIME TO DEPOSE KING WINTER

Enter Prince Charming
Will Embrace Prince of
Spring With Both Arms
Long May He "Rain"

Jack Frost will in all probability be given twenty-four hours to leave the city, for he is Old Man Winter's most faithful retainer. Yet only Monday, this young Imp was discovered or rather "caught," painting flakes on the office window pane. He was out of town on Sunday.

Coming back to earth though, and becoming real serious, it has been a long, hard, cool, dreary etc., winter. There has been some sickness too. It will not be difficult for anyone to recall a number of real old time snow storms, and the odd blockade. But why delve into history.

"Soon, very soon... In the near future," promises the office snow-

ayer, "This know, ladies and gentlemen, that with the warm sunshine and the like-wise warm rains, we shall soon have the nice spring floods, and all the rest of it. Finally flowers.

"Optimism," continues the official, "is our key note, and we are right in tune." This may be true, but at all events try and keep smiling and sing this.

Where you see clouds upon the hills
You will soon see the daffodils.
So keep looking for your bluebirds
And it surely will be found.

toys, Mar. 21.—That whiskey is being shipped into Toronto from Montreal in car-loads into the city, and that the wholesale shipping of liquor is the statement made Tuesday by Inspector George Lydiate, of East Toronto police station, who, with his men, have uncovered a "significant" whiskey running business in the yards of the Grand Trunk at East Toronto. No information as far gathered here is a ring of bootleggers working in conjunction with several Grand Trunk yardmen and other officials in the care of whiskey at East Toronto yards. The police have stated that from several yardmen that one man was given \$500 to cut off the Toronto a siding where they are loaded near Danforth avenue, while the trainman stated they had been

Presented as to its progress and Amount Required, For Completion

A joint meeting of the Board of Education was held last evening in the Board Chamber, city building and was attended by the following:

Mr. McFarman stated the object of the meeting, namely, the hearing of Mr. Jarvis, architect, relative to the work yet to be done on the George school, and also as to the

time \$75,000 worth of work has been done and about \$80,000 has been paid to the contractor. The report showed that the remainder of the work to be done would cost some

the contract price. The discussion took place as the building would be completed it was apparent that it would cost at least two months more to build the BOSTON TRAMWAY. The considerable discussion took place as to continuing the bond and steps the Board had to take to the matter. The following was moved by Mr. A. McGee and seconded by Mr. Jones, was unanimously adopted.

LINDSAY FAVOR SINGLE SCHEDULE

Held Meeting to Discuss Possible Matter in Little League This Year

Everly Lindsey, baseball executive is preparing for a busy season, and his first project will be to hold a meeting of the Little League Association. The "Post" says that the ball situation was discussed at the office of Mr. J. D. Doherty, president of the Central Ontario League. Twenty-five delegates, who were present at the meeting, were asked to bring with them a letter from the league for action this season.

The local club will have a single schedule. By, with Leaside, Brampton, Oakville, Port Hope and Lindsay. The schedule is in a single group. The league will be held in the fall. The first game will be played on September 1st. The game will be played at the home of the home team. The game will be played at the home of the home team.

The adoption of the single schedule would mean that Lindsay would have to play home games every other week. The pay would be \$1.00 per game. The game will be played at the home of the home team. The game will be played at the home of the home team.

days. Mr. Estlin declared he did not see a copy until the annual meeting of 1922. Witnesses identified, among others, a copy signed by E. Gallagher, manager of the Calgary Highland Club, stating \$1,217.80, for expenses signed by Roy as having been paid out for the Toronto trip last fall.

Declaring that he had received at the conclusion of the Toronto tour, to bring all about it, Mr. Estlin declined to give any information concerning the amount of money handled by the association in connection with the tour. When asked by Mr. Estlin if he considered \$115 as a reasonable sum for a secretary's wages, he said this amount, if justified, should be charged to the separate account of the secretary, and not to the association. He admitted he had a great deal of material work to do during the tour, and said he had seen a secretary in his office during the latter part of 1921, but the association, never had authorized a secretary.

MOUNTAIN VIEW

Mr. John Wasmann, who recently underwent an operation at the hospital, died there on Sunday. He was buried at Mountain View on Monday afternoon. Mr. W. J. Van of Mountain View is a brother.

Mr. Estlin said he was co-president of the association in 1921, and attended the annual meeting in Toronto in August of that year. Mr. Roy, then secretary-treasurer, when asked for his financial report, promised to have a copy mailed to each member of the executive within thirty days.

PANNING ARRELL

Edith Collins was the worst ball player. Monte Cross, boxer shortstop of the Athletics, ever saw. But Eddie was playing short when Cross saw him and he had found the player at ground. "Monte Cross introduced me to Collins," Cross said recently, "and he asked me to take him out and see what he could do. I took him over and told him that he might have been good in college, but he would never do in fast company. He could hit and he was fast with his hands. He was much faster with his head and it was his shift him over to second base. He stopped fighting the ball and you know the rest."

Collins at that time was known officially as "young Sullivan."

Dan Rogers had a lot of experience with boxes and writers before he started panning Rocky Knappe to the front rank among the lightweights.

"I used to hit a colored boy who had just come up from the south," Rogers says. "I was just getting him started and we weren't getting much success. Every time I would see him I would throw him with his hand out I would give up a paper and read him some verse where it said he was a great fighter in the world and that he would get a million dollars in a year. I knew he couldn't do it. It would be a long while but finally he interrupted me one day in the middle of a perfectly beautiful reading and said:— 'Excuse me, Mr. Dan, but I can't poke chips out words and clip-pings.'"

A sadder condition for any soul to know than Christ means to be without hope.

He showed that Christ was "the beginning" not only of the material creation but of the Christian life and profession of Christianity without the possession of Christ as Savior means. We have not begun the Christian life, Christ is "the way" and God will never be reached, except through Christ.

"He is the power of God." If you want power over sin and the world you must have Christ. He is the power of God. He is the power of God. He is the power of God.

**ALL READY FOR
BIG CONVENTION**
Pictou Bay Town This
Week, Annual Meeting
Orange Lodge Held

BILLET DELEGATES
Hospitality Extended to Vis-
iting Brethren After
Hotels are Crowded

(Special to The Intelligencer by Staff Writer.)
Pictou, N.S., Sept. 21.—With much excitement and happy talk following preparations which have been in progress for some time, everything is in readiness to receive the delegates to the annual meeting of the Orange Lodge of Pictou.

The Grand Black Chapter opened their session today with over 100 delegates present. The Orange Lodge of Pictou and the Lodge at Orange Association will begin their deliberations tomorrow. Over 500 delegates are expected. The majority of them will arrive tomorrow. The delegates are crowded to capacity and arrangements have been made by the local lodge committee to billet the delegates in private homes. The citizens have thrown their homes open wide to accommodate the delegates and are determined that every consideration will be afforded to the delegates. Everything is working smoothly and it is confidently expected that the proceedings will terminate without a hitch.

Tomorrow night the ladies of the local lodge are launching the visiting delegation of the L.O.E.A. and a public meeting is being held in the evening which will be addressed by such eminent speakers as W. D. McPherson, and H. C. Hocken, of Kingston. Many members of the Orange are expected by tomorrow's train and the town will accommodate a metropolitan assembly until Thursday night, when the visitors will depart for their homes.

The sessions are scheduled to take place in the parish hall of the Anglican church of St. Mary Magdalene, which has been placed at the disposal of the order.

In conjunction with fraternal activities the annual automobile show is taking place in the Armistice. Local doctors have arranged attractive exhibitions of the new models and accessory representatives are coming to town for the event. The mild weather has interfered with the automobile, but it is expected that a good crowd of interested people will attend the affair.

Dr. Morley Currie of Pictou
Announces Tuxia Boys on This Subject

Tuesday night in the Bandy School room of the Methodist Church, Pictou, Dr. Morley Currie gave an interesting address on "The Medical Profession as a Life Work" to the Boys of that church. The address was also given to the parents and was well attended.

Tomorrow night the ladies of the local lodge are launching the visiting delegation of the L.O.E.A. and a public meeting is being held in the evening which will be addressed by such eminent speakers as W. D. McPherson, and H. C. Hocken, of Kingston. Many members of the Orange are expected by tomorrow's train and the town will accommodate a metropolitan assembly until Thursday night, when the visitors will depart for their homes.

The sessions are scheduled to take place in the parish hall of the Anglican church of St. Mary Magdalene, which has been placed at the disposal of the order.

In conjunction with fraternal activities the annual automobile show is taking place in the Armistice. Local doctors have arranged attractive exhibitions of the new models and accessory representatives are coming to town for the event. The mild weather has interfered with the automobile, but it is expected that a good crowd of interested people will attend the affair.

Hotels are Crowded

(Special to The Intelligencer by Staff Writer.)
Pictou, N.S., Sept. 21.—With much excitement and happy talk following preparations which have been in progress for some time, everything is in readiness to receive the delegates to the annual meeting of the Orange Lodge of Pictou.

The Grand Black Chapter opened their session today with over 100 delegates present. The Orange Lodge of Pictou and the Lodge at Orange Association will begin their deliberations tomorrow. Over 500 delegates are expected. The majority of them will arrive tomorrow. The delegates are crowded to capacity and arrangements have been made by the local lodge committee to billet the delegates in private homes. The citizens have thrown their homes open wide to accommodate the delegates and are determined that every consideration will be afforded to the delegates. Everything is working smoothly and it is confidently expected that the proceedings will terminate without a hitch.

Mellotone
For Those Walls Of Yours

If you could go and see a room that has been painted with Mellotone, and what you would see would be more convincing than anything I can say in its praise for an hour.

If you can't do that, then we might say that if you want a choice velvet finish, having a depth and richness impossible to secure in any other way.

Hats For Spring

By HELENA ROY.
(Special Editor of The United Press.)
New York, N.Y., March 23 (United Press). There's nothing lovelier than the hats," said the PMA Avenue millinery as she showed me new rows of the most beautiful fashionables of the season of your grandmother's day.

The hats of today have taken hold in sport wear, dress wear and hat or with hair curled in dainty waves. The hats of today are as simple as the hats of the evening year. One seldom sees any hat except a few large light-colored ones which are shown for the first time. The hat of today is a simple affair with a wide brim and a low crown. The hat of today is a simple affair with a wide brim and a low crown. The hat of today is a simple affair with a wide brim and a low crown.

THE TONIC THAT GIVES STRENGTH

Now is the Time to Rejuvenate Your System and Throw off All Winter's Lags.

An unusually trying winter is almost over, but the spring will find many of us feeling weak and listless. This is because our system has been exposed to cold, dampness, and other conditions which have weakened our vitality. It is now time to rejuvenate our system and throw off all winter's lags.

It is now time to rejuvenate our system and throw off all winter's lags. It is now time to rejuvenate our system and throw off all winter's lags. It is now time to rejuvenate our system and throw off all winter's lags.

BRAKE BEAM SNAPPED

And Two Freight Cars Load ed With Merchandise Take Drop

Port Hope, March 31.—Everything from street cakes to plums, were strewn about the embankment at the 157 of the Municipal and St. George street car crossing when the spring of one of the freight cars failed by the derangement of a wheel within one week of being new. The cause of the trouble was the same because the beam of the axle broke. The car was once known as an Alderman of the City of Bellevue. It is supposed to have been a fine machine, deranged of office within the week the two City Councils gave the car a new name, "The Alderman." I understand, however, that Mr. Gardiner will accept office.

morning a heavy east bound freight had just started over the viaduct when a brake beam dropped down and two of the big cars toppled over the embankment to the street, on the left. The car on the left was a freight car, the graphole and snapped it off about the centre. Both cars were considerably damaged and their contents consisted of linoleum, concrete, and a lot of slag. Magic baking powder, were strewn all along and finally a piano came tumbling down out of the car. The car on the right was a passenger car and notwithstanding their rough

FINAL SING-SONG

Wednesday was the occasion of the last meeting this season for men at the Y. M. C. A. and also the final sing-song meeting of the season.

There was a good attendance at the sing-song, which was in charge of the Rev. J. W. Smith, pastor of the First Reformed church, under the chairmanship of Mr. Cecil Leitz, president of the League.

Albert College made quartette rendered a selection in good voices during the meeting and many old hymns were well

Last evening at St. Thomas church there was a large attendance at the choral service, it also being Palm Sunday.

The service was purely choral and the music was very much in keeping with this day. Several hymns were sung in memoriam for Mrs. Arthur Wallbridge, a member of the church, who passed away during the choral service. The grand finale of the church service, a very beautiful or-

Not Yet Completed

In the Provincial Legislature Mr. Lewis asked the following questions:-

1. Is it the intention of Government to complete the road to Ben Edeko this year?
2. When will it be completed?
3. How many miles remain yet to be completed so that tourists can reach Ben Edeko Inn?

And the Minister of Lands and Forests replied as follows:-

GETS REVERENT DECISION OVER BERRY ERIK AT GAYETTE THEATRE

Toronto, March 27.—Bobby Eber, the basketball flash from Illinois, his last with Gayette Theatre last night. The decision was close and the crowd was as surprised as the winning team and his supporters when after the judges declared the referee gave the win to Wilbur.

The preliminary was not up to much. They did not even get a chance to show the boys in the main hall, but, as they were not a delay of half an hour occurred. Had it not been for the opening little interest being shown, the large crowd could have had as much pleasure watching a professional artist in the window of a restaurant.

"RUDOLPHING" RECRUITS

Mormon Crusade in Montreal—Handsome Young Men
Seek to Proselyte Pretty Young Women to
Church of Utah

Montreal, Que., March 28.—"Rudolphing" recruits to religion
are claimed to be the worst of the Mormon crusade in
Canada, especially in Montreal.

Yesterday Chief of Police Belanger admitted that his de-
partment has been flooded with the worst of the city that handsome, young men are
making a door-to-door canvass of the district, urging pretty
young women to join the church of Utah.

"They're ten out of ten," Chief Belanger said, "and the young
women called to headquarters with her plant that one of Valentine's
doubts had tried to persuade her to leave home. "I'd," she
declared curiously, "but."

According to the police, there is no means of checking the
crusaders, as they are not violating any statute or civic regula-
tion. As far as can be learned, the drive here for votaries has

Ottawa, March 29.—D. B. Hanes, President of the Canadian National Railway, received on his retirement a grant of \$250,000 in addition to his salary to the date of retirement. This information was given to W. J. Ward (Progressive, Dauphin) in the House of Commons yesterday afternoon.

"Why was this great grant, and on whose authority?" asked Mr. Ward.

"It was given in recognition of the services rendered by authority of the Board of Directors of the Canadian Northern Railway," replied Hon. G. P. Graham, Acting Minister of Railways.

"Did Mr. Mitchell, former Vice-President of the Canadian National Railway, receive a gratuity of \$250,000?" asked Mr. Ward.

"Yes," was the reply.

"Are any other retiring officials or directors of the Canadian National Railway receive a similar grant on retirement?" persisted Mr. Ward.

The Minister replied that S. L. Shazson, Comptroller and Treasurer, Canadian National Railways, had indicated that the Government was paying \$100 million more than it receives from the railways, amounting to \$5,000,000 per month to superannuation. W. H. Rogers, M. C., Vice-President, Grand Trunk Railway, died on July 7, 1932, and the Grand Trunk Canadian Board elected Rogers' son-in-law, J. G. Macdonald, President, on December 1, 1932, at the same year. The board of directors has been reduced to three members to superannuation, consisting of Mr. J. G. Macdonald, President, Canadian Board to Frank Scott, Vice-President and Treasurer, \$80,000; to R. S. Logan, Vice-President, \$60,000; and to J. A. McNeil, Secretary, \$40,000. The President, Western lines, \$10,000.

"In addition he says," Mr. Robt. Smith said, "that the President of the Grand Trunk and the President of the Grand Trunk Pacific are receiving a salary of \$40,000 each, while the President of the Grand Trunk Pacific actually, R. S. Logan, Vice-President, \$120,000, and Frank Scott, Vice-President, \$100,000. The President of the English

The operation was performed by Dr. K. Winfield Ney, assisted by Dr. Emil Alkana, attending neurologist of the Beth Israel Hospital.

The life of the patient had been despaired of. His grave had been purchased, and his family reconciled to the fact that he could not live. He is married and has four children, living at 27 Thirteenth street, Newark. With hope of his recovery under the usual treatment miserably given up, the physician at

the Beth Israel called in Dr. Ney, and consulted as to an operation. It was agreed that the general condition of the patient was such that he could not survive a long period under ether, but that an operation under a local anesthetic
